INSTRUCTIONAL GUIDE

TYPE-C MULTI-PORT ADAPTER V2

- 1** Connect the Type-C Multi Port Adapter V2 to Type-C port of your MacBook. Compatible with 2015/2017 MacBook and 2015/2017 MacBook Pro.

- 2** Connect native MacBook charger to pass through port to charge your MacBook. Blue LED indicates that Adapter is powered.

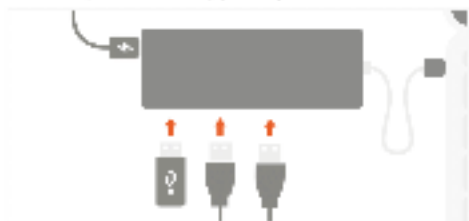

- 3** Connect external monitor to HDMI port of the Adapter with HDMI Cable. HDMI port requires a direct HDMI to HDMI connection. Not recommended with VGA/DVI monitors.

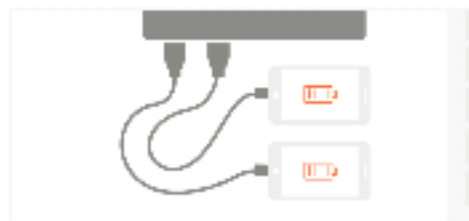

- 4** Connect Ethernet Cable to Ethernet Port.

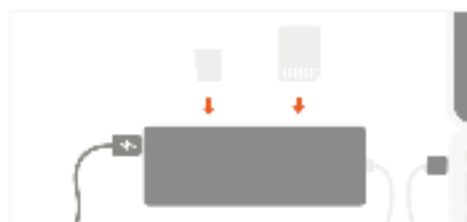

- 5** Connect USB HDD/SSD/Thumb or any USB Device to USB Type-A ports. Not compatible with Apple SuperDrive.

- 6** Charge phones through USB ports of the Adapter using native charging cables.

- 7** Attach either Micro SD or SD Card to appropriate slot of the Adapter

NOTE: OPERATING TEMPERATURE IS 85-122°F
